Schedule of Personnel/Equipment Rental Rates

I. INTERPRETATIONS

Sub-Contractors, Fishermen's Oil Spill Emergency Team (FOSET), Support/Advisory Consultants and Mutual Aid

The Canadian oil spill response regime was established in 1995 to ensure a state of readiness would always be in place, and that the response capability be practical, effective, sustainable and affordable. The concept was not to produce a "fire hall" type response with personnel and equipment in all locations waiting for a potential call, but rather, it was decided to develop guidelines and standards that were reasonable and practical, and to staff the organization with a minimum level of personnel, calling in support personnel as required.

BCO/WCMRC has identified and developed contractual arrangements with many contractors and advisors based on their expertise, knowledge and experience. Their fees are on an individual and/or company basis, based on marketplace rates, the aforementioned expertise, and the knowledge and experience they have in spill response. BCO/WCMRC has established these support contracts in advance of a response to ensure consistency in rates, and as well to ensure support personnel have been integrated into our spill management practices through exercises, training, and hands-on maintenance of equipment. Invoices from sub-contractors passed through BCO will be subject to a handling fee. Sub-contractor rates are non-negotiable.

The Fishermen's Oil Spill Emergency Team (FOSET) was established to supplement on-water support with vessels of opportunity and response personnel. FOSET members have extensive knowledge of the B.C. coastal waters, and BCO has established a contractual arrangement with these fishers, depending upon their availability, to assist in marine oil spill response. Charter rates have been pre-established for the various types of vessels, and some of the other typical charges associated with a vessel chartered for oil spill response activities will include:

- provisions (excluding personal items, alcohol, tobacco, etc.)
- fuel
- accommodation (some vessels have extra berths that may be used by BCO or it's sub-contractor personnel when in remote locations)
- Workers' Compensation Board of B.C. premiums
- insurance premiums for these vessels, as applicable

and these charges will be included in BCO's invoice to the Responsible Party, are non-negotiable, and will be subject to a handling fee.

Schedule of Personnel/Equipment Rental Rates

Mutual Aid - BCO has established a network with other spill response organizations (i.e., Washington State, Alaska) to ensure that specialized equipment and personnel can be obtained if/as needed. Invoices from mutual aid partners will be subject to a handling fee, and their rates are non-negotiable.

BCO/WCMRC will issue interim invoices throughout the response, and will continue until all associated costs have been billed. In the event of disputed items, please refer to the “*Disputed Invoices*” clause of the agreement. As referred to in the agreement, 80% of any disputed item is payable within the terms of the invoice (due and payable by the end of the 5th business day following receipt).

During spill response operations, meals are provided on-site, where appropriate, to all field and incident command personnel at a reasonable cost, which will be billed to the Responsible Party, and are subject to a handling fee.

Discounts -

- Members (refer to “Definitions”) are entitled to a discount of 50% of the *Daily Operational Shift Rate*. This discount does **not** apply to the “Workboats” category, or to “BCO Personnel”.
- Subscriber members are eligible to a 25% discount of the *Daily Operational Shift Rate*. This discount does **not** apply to the “Workboats” category, or to “BCO Personnel”.
- Non members are **not** eligible to any discount of the *Daily Operational Shift Rate*.

Note:

BCO/WCMRC will honour the contractual agreements in place with sub-contractors, FOSET members, support/advisory consultants and mutual aid organizations, and therefore will not re-negotiate their rates.

Schedule of Personnel/Equipment Rental Rates

II. DEFINITIONS

“BCO/WCMRC” - Burrard Clean Operations/Western Canada Marine Response Corporation - Response Organization on Canada’s west coast.

“Billable hours” - where equipment is deployed, and is either operating or dedicated to remain on-site on a 24 hour basis, and as such, is not available to BCO for use in other responses, will be billed on a 24 hour period.

“Daily Operational Shift Rate” - the rate for BCO equipment and personnel is based on a 12 hour day, with the exception of boom, trailers and containers. Shifts for equipment operating in excess of 12 hours will be billed on an hourly rate for any and all hours over and above the 12 hour day.

“Equipment Status” –

Equipment is deployed and is operating

- i) Deployed
- ii) In transit
- iii) In decon

Equipment is deployed and not operating (not available for use in any other response)

- i) Standby/staged

Equipment is not operating

- i) Under repair

“Handling fee” - is calculated on all equipment, services and disbursements (excluding materials supplied through BCO) will be billed, subject to a 15% handling fee – refer to the following scale:

Services, etc. to which a handling fee applies –

\$0 to \$500,000	=	15%
\$500,001 and over	=	1%

“Major Equipment” - for purposes of decontamination, the following will receive the highest priority

- Burrard Cleaner No. 1, 2, 5, 6, 7, 8, 9, 10, 11, 17, Eagle Bay
- Portable skimmers
- Containment boom

Schedule of Personnel/Equipment Rental Rates

“Member” - an organization with an arrangement, *Ship (Bulk Oil)*, *Ship (Non Bulk Oil)*, or *Oil Handling Facility Membership Agreement* with BCO, a certified Response Organization (RO), as required under the *Canada Shipping Act, 2001*.

“Non member” - an organization that does not have an arrangement in place prior to requesting spill response services.

“Response Organization” - certified by Transport Canada to respond to marine oil spills of up to 10,000 tonnes.

“Standby/staged rate” (where equipment has been deployed and is not operating and can be used in another response, if required) - 50% of the Daily Operational Shift Rate

“Subscriber member” - an organization with an agreement (Subscriber Agreement) with BCO. There is no requirement under the Canada Shipping Act for these members to have an arrangement with an RO, however, as part of their due diligence, have elected to be a member of BCO.

Schedule of Personnel/Equipment Rental Rates

III. GENERAL

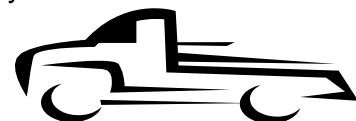

i.) Daily Rate

- The Daily Rate for equipment is based on a 12-hour day, with the exception of boom, trailers and containers which are based on a 24-hour day.
- The maximum rental for a specific section of deployed boom is 25 days. This cap on boom rental does not apply to the Kepner boom (Harbour, Offshore, Hi-Sea), Shore Seal, Ro-Boom System or NOFI Vee-Sweep.
- Where the hours for equipment exceed 12 hours per day, these additional hours will be billed on an hourly basis, over and above the 12 hour day. When major equipment is in decontamination, then a 24 hour per day charge will apply until such time as the equipment is returned to its normal inventory location
- Equipment is in service from the time it leaves its normal inventory location to the time it is returned to its normal inventory location (portal to portal), including the time during decontamination.
- No daily rate charges will apply if equipment is out of commission for repairs.
- The time involved in decontamination, transit and staging will be considered as operational.

ii.) Equipment Categories

In order to determine the *Daily Operational Shift Rate*, the equipment is divided into the following categories:

- “Non-durable Equipment” - includes equipment that is expected to deteriorate quickly as a result of use in any spill situation due to its construction. This includes fabric based equipment (e.g. boom), light-weight mechanical equipment, and certain equipment that does not easily resist heavy abuse.
- “Durable Equipment” - includes equipment that is robust and designed for marine environments. Most large dedicated oil spill equipment is in this category (e.g. trailers, skimmers, boats). Also included is equipment less robust, but which would not be subject to heavy service (e.g. communications equipment), if used in the Operations Centre or Incident Command Post).
- “Barges” - includes steel and aluminum or similar barges, primarily used as a work platform or as storage, with little or no equipment as an integral part of the barge. Equipment loaded on the barge will normally be charged separately.
- “Vehicles” - includes any motorized vehicle owned by BCO.

Schedule of Personnel/Equipment Rental Rates

iii.) Consumables

Sorbents, personal protective equipment and other materials owned by BCO will be charged in accordance with the published schedule.

Sorbents and other materials purchased specifically for the response will be billed at cost plus the handling fee.

iv.) Additional Charges

- Hand tools (i.e., shovels, rakes, etc.) will be charged at replacement cost plus the handling fee, as applicable, if not returned to BCO inventory, and cannot be decontaminated;
- Additional insurance costs applicable to “Skimmers (self propelled)” at a rate of up to \$230.00 per day per skimmer during response is charged, as applicable. This may also apply to other vessels.
- FOSET (Fishermen’s Oil Spill Emergency Team) fleet - additional insurance and Workers’ Compensation Board premiums will apply, as appropriate;
- All transportation costs for equipment transfer, including barges and vehicles, to and from a BCO facility or other BCO equipment location (i.e., custodian facility) to the site are additional;
- Operating expenses (i.e., fuel) and personnel costs are not included in the *Daily Operational Shift Rate*;
- Disposal costs. BCO is **not** responsible for the disposal of waste materials, but will assist with the disposal plan, at the cost of the Responsible Party or requesting agency.
- Charges for equipment will continue until all equipment has been decontaminated, and returned to its usual inventory location. Associated personnel charges will apply, as applicable.
- Where equipment has been contaminated by persistent oils, it may not be feasible to decontaminate (i.e., storage tanks, hoses). This equipment, or part of equipment will be replaced, and the replacement cost plus the handling fee will apply. Some types of storage tanks have liners, and in these cases, the replacement cost of the liner, plus handling fee will apply.

v.) Minimum Charge

The minimum call out charge for personnel and equipment is 4 hours.

Schedule of Personnel/Equipment Rental Rates

vi.) Decontamination

When major equipment as defined below is in decontamination, then a 24 hour per day charge will apply until such time as the equipment is returned to it's normal inventory location. A maximum of a 12 hour daily rate will apply to all other equipment during decontamination. Where there is a delay in completing the decon process, and this delay is due to BCO, then no rental will apply for that period only.

Major equipment –

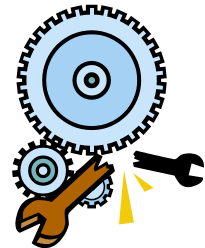

- Burrard Cleaner No. 1, 2, 5, 6, 7, 8, 9, 10, 11, 17, Eagle Bay
- Portable skimmers
- Containment boom

vii.) Damaged Equipment

Where equipment has been damaged and is repairable, then the cost of the repair and handling fee will apply.

viii.) Equipment Damaged Beyond Repair

The charges for equipment damaged beyond repair, and/or lost, as a result of the response, will be billed at replacement cost plus handling fee. This limit is exclusive of the Daily Operational or standby rates already charged for the time used before the damage, but does not include applicable disposal costs, which are additional where required.

ix.) Transportation of Equipment

The transportation of equipment either by BCO personnel or a third party will be considered as operational, and will be billed. All third party charges are subject to a handling fee.

x.) Extraordinary Transportation of Equipment (i.e., air charter)

BCO will advise of the costs and request specific approval. A handling fee will apply.

xi.) All rates/prices are subject to change without notice.

xii.) All fees/charges are subject to applicable taxes.

Note:

Special rates for the extended use of equipment/services may apply at the discretion of the BCO President/General Manager.

Schedule of Personnel/Equipment Rental Rates

IV. PERSONNEL

Personnel/Equipment Rates:

Rates for personnel, equipment and consumable items are established according to the structure outlined as follows. **Rates are subject to change without notice.**

BCO/WCMRC Personnel Rates are quoted on the basis of a 12-hour shift per person, and do not include expenses (i.e., meals, accommodation, etc.). Where the hours worked are in excess of the 12 hour day, these additional hours will be billed based on the following hourly rates. Expenses will be billed, subject to a handling fee, and will be supported with appropriate documentation. Travel time is billable based upon hourly rates.

Personnel Rates	1-12 hours rate	>12 hours Hourly rate
<ul style="list-style-type: none"> ▪ Spill Response Manager ▪ Deputy Spill Response Manager 	142	221
<ul style="list-style-type: none"> ▪ Section Chief ▪ Command Officers (Liaison, Safety, Information) 	90	142
<ul style="list-style-type: none"> ▪ Deputy Section Chief ▪ Branch Director (Air Operations, Support, Services) 	68	115
<ul style="list-style-type: none"> ▪ Managers ▪ Group Supervisors ▪ Unit Leaders, Field & Task Force Leaders ▪ Coordinators ▪ Mapping Specialist ▪ Barge Master ▪ Field Observers ▪ Field Safety 	65	96
<ul style="list-style-type: none"> ▪ Oil Spill Technician ▪ Vessel Captain/Operator 	60	91
<ul style="list-style-type: none"> ▪ Field Operations personnel (Deckhand, Shoreline worker) ▪ Unit and Group personnel ▪ Administrative Support 	47	71

Schedule of Personnel/Equipment Rental Rates

<ul style="list-style-type: none"> ▪ Contractor 	<p>invoice as submitted by the contractor, plus handling fee (the invoice will include contractor expenses and equipment charged by the contractor)</p>
--	---

All personnel, including accounting, administrative, logistics and management, whether on site or at support locations, are billed at the above rates, regardless of full-time or part-time status. Rates for remote sites and prevailing-wage projects may require a surcharge to be determined.

Any ICS position filled by a contractor, the rate will be the contractor’s invoice, plus the handling fee. Where a contractor has been required to take personnel off existing jobs to respond to emergency response activities, their rates may reflect emergency rates in consideration of penalties, etc. they incur as a result of delays to existing jobs.

Training/Consulting Services –

- BCO personnel are available to conduct spill response training, plus expenses, at a rate of \$900.00 per day;
- BCO personnel are available to provide consulting services, plus expenses, at a rate to be agreed upon.

Other –

- BCO’s training room is available for rental inclusive of audio visual equipment as follows:
 - \$150.00 per day
 - \$175.00 per day (includes coffee)
- Trajectory modeling, outside of spill response (i.e., exercises), is available at \$250.00.

Schedule of Personnel/Equipment Rental Rates

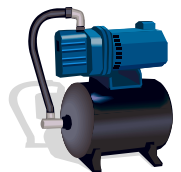

V. EQUIPMENT

Response Organization Equipment		
Description	Charge-out Rate	
Non-Durable	Daily Operational Shift Rate	see schedule
Durable	Daily Operational Shift Rate	see schedule
Barges (equipment extra)	Daily Operational Shift Rate	see schedule
Vehicles	Daily Operational Shift Rate	see schedule
	Mileage	see schedule
Consumables		see schedule
Disbursements		as incurred

Equipment Rates		
	Description	Charge-out Rate
Third Party Supplier	Rented equipment	invoice as submitted, plus handling fee
Third Party Supplier	Damaged equipment	Invoice as submitted, plus handling fee

Notes:

- 1.) Security may be hired as appropriate, and will be billed subject to a handling fee.
- 2.) All equipment rates exclude operator costs and fuel, unless otherwise stated.

Schedule of Personnel/Equipment Rental Rates

Please note the “Member” rate, as shown in the following, does not apply to “Subscriber” members.

Skimmers - Self-propelled (Durable Equipment)					
Description	Accessories	Daily Operational Shift Rate	Hourly Rate	Members	
				Daily Operational Shift Rate	Hourly Rate
Burrard Cleaner No. 2 50' (Marco) vessel	belt skimming system (light to heavy oils)	7,000	583	3,500	292
Eagle Bay 47' (Rozema) vessel	LAMOR brush skimming system (light to heavy oils)	6,500	542	3,250	271
Burrard Cleaner No. 9 75' (Marco) vessel	belt skimming system (light to heavy oils)	8,500	708	4,250	354

Skimmers – Pushed (Durable Equipment)					
Description	Accessories	Daily Operational Shift Rate	Hourly Rate	Members	
				Daily Operational Shift Rate	Hourly Rate
Burrard Cleaner No.1 42' (Bennett) pushed vessel	Lori brush skimming system (light to heavy oils)	4,000	333	2,000	167

Note: As a tug is required for the Burrard Cleaner No. 1, these charges will be billed to the Responsible Party, subject to the handling fee.

Vessels (Durable Equipment)					
Description	Accessories	Daily Operational Shift Rate	Hourly Rate	Members	
				Daily Operational Shift Rate	Hourly Rate
